Tamil Nadu, India
Tel.: +91 44 4864 1495
www.mbyom.com

Designation: Consultant (3 positions)

Location: Chennai.

Duration: Fulltime.

Remuneration: Based on candidate, experience and fitment.

About mByom:

mByom is a consulting and management firm built by a core team of institutional transformation professionals. mByom brings together senior advisors, technology partners and on-ground professionals that make sustainable transformation possible.

The primary focus of mByom is in strengthening of Government institutions to improve their performance and service delivery to the public. mByom has a specific interest in **supporting MSMEs** and small enterprises and in helping them grow and prosper. At the other end we are working with Government utilities and are helping them adopt to **Electric vehicles** – a fairly transformative change for some departments!

Key Responsibilities:

The role will be a part of the Institutional Consulting team of mByom. This is a core management consultancy role in the public sector and development sphere. The candidate will be expected to assist in various projects end to end. This would include, but not be limited to:

- Work as part of a team on project delivery – attend discussions, develop reports and presentations, and carry out project administration related tasks.
- Work will involve an understanding of the project/ problem statement, working with available data and designing effective solutions for the same.
- Handhold Interns/ Associates and ensure high-quality, timely submission of output.
- Create and implement monitoring and evaluation frameworks for specific projects/ workpieces.
- Front end discussions (after initial training), and play an active role in client discussions.

Eligibility and Skills:

- You have an unending zeal to learn, to explore, to read widely and to travel.
- You are comfortable discussing models of innovation today; the export policy of a state the next day; back to handling industry-academia partnerships; and jump back to cleaning up an XL sheet with disconnected pieces of data.
- You enjoy crunching numbers, learn from other models, can talk to people, can articulate a clear point of view, and can evolve recommendations.
- You have a diversity of interest – from music, to dance or drama, writing, singing, languages. In other words, you have done interesting things outside of your academics.
- You have completed a UG/ PG course in Social Sciences, Management, Engineering, Law, Public Policy, or Commerce. If you meet the other criteria and are pursuing a course in an alternate subject, please do apply.
- Minimum 1 year of relevant work experience (Project Management/ Consulting preferred).
- Expertise in MS Office (Word, Excel, Powerpoint).
- Excellent oral and written communication skills.

To apply for this role, please send in your resume to dhruv@mbyom.com and vidya@mbyom.com.
